I have been attending St. Andrew's in Madison since 2010. My spouse, Peter, and I were looking for a church community that centered around a more traditional worship service. While I was in college I participated in a campus Christian ministry and also did an internship as a youth minister in an Episcopal church in north Florida. During that summer internship I experienced an Episcopal service for the first time. Many years passed and I am now a regular participant in many St. Andrew's activities, including Vestry. Since my involvement in St. Andrew's I am also now confirmed. I have experience in managing finances and overseeing difficult budgets. In my previous employment I have worked managing budgets up to \$1.5M. I have also had extensive experience in exploring issues of justice on issues of modern day slavery, fair cooperative farming, and economic justice. These are all issues that I would bring to the table in identifying how to best manage the resources of the dioceses.
